RMK “Start-up-Power” Package

Are you planning to start a business, or have you already started one? Are you looking for a quick boost and success after the launch? The very beginning is the time when founders get very excited about their business idea and are enamoured with the thought of becoming an entrepreneur or perhaps acquiring an investor. You might be profiting from ‘beginner’s luck’. One can understand that you want to decide and do everything yourself and fast. At first you may be sailing through - fuelled by enthusiasm and passion; however, the beginning can also prove to be the time of lurking traps or even big mistakes. These could later lead to severe, expensive or even fatal consequences. Of course, you can accumulate all the experiences that go with the launch of such a venture.

The truth is most start-ups unfortunately fail, despite the fact that new entrepreneurs were confident that they were doing the right thing. However, not those under my wing, where it is the opposite. It is smart and wise to use and benefit of others’ vast experience – not to have to learn the hard way and risk paying dearly. Better to stay safe on your way to success with the right coach!
